Dynamic signs in physical environments - Part 1: General requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Dynamic signs	2
5	Visibility	4
5.1	General	4
5.2	Graphical symbols and pictorial symbols to be displayed	4
5.3	Characters to be displayed	4
5.3.1	Font style	4
5.3.2	Font size	4
5.3.3	Presentation content and context	5
5.3.4	Number of characters	5
5.4	Types of dynamic display methods and their requirements	5
5.4.1	Types of dynamic presentation incorporating movement	5
5.4.2	Types of temporal variation in brightness, chromaticity or shape	5
5.5	Visual requirements for dynamic signs to be considered	5
5.5.1	Information volume	5
5.5.2	Size	5
5.5.3	Colour	5
5.5.4	Contrast and luminance	5
5.5.5	Lead time, presentation time and velocity	5
5.5.6	Display location	6
5.5.7	Discomfort and annoyance from signs	6
5.5.8	Requirements for combinations of symbols and characters	6
6	Visual image safety	6
6.1	Considerations for avoiding photosensitive seizures	6
6.2	Considerations for avoiding visually induced motion sickness	6
6.3	Considerations for avoiding visually induced balance disorder	6
6.4	Considerations for restricting misuse	6
7	Accessibility	6
7.1	Consideration of diverse users and diverse context of use	6
7.2	Use of multiple languages	7
Annex A (informative)	Examples of dynamic sign use	8
