

ISO/IEC 17549-1:2022-05 (E)

Information technology - User interface requirements and recommendations on menu navigation - Part 1: Frame work

| Contents | | Page |
|--------------------|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Conformance | 2 |
| 5 | Framework of the ISO/IEC 17549 series | 2 |
| 5.1 | Software interfaces | 2 |
| 5.2 | Menus heterogeneity | 2 |
| 5.2.1 | Manipulation of menus | 2 |
| 5.2.2 | Several menus on different devices | 3 |
| 5.2.3 | Same menu for different users | 3 |
| 5.2.4 | Hardware interfaces (devices) | 3 |
| 5.3 | Menu accessibility | 3 |
| 5.3.1 | General requirements | 3 |
| 5.3.2 | Cognitive aspect | 3 |
| 5.3.3 | Perceptual aspect | 4 |
| 5.3.4 | Motor and speech ability aspect | 4 |
| 5.4 | Displays and commands coherency | 4 |
| 5.4.1 | Global coherency | 4 |
| 5.4.2 | Coherency between interface rendering and navigation commands | 5 |
| 5.4.3 | Horizontally displayed menus | 5 |
| 5.4.4 | Vertically displayed items | 6 |
| 5.4.5 | Items horizontally organized in a tile menu | 6 |
| 5.4.6 | Items vertically organized in a tile menu | 7 |
| 5.5 | Interface action means | 8 |
| 5.5.1 | Minimal requirement about interface action means | 8 |
| 5.5.2 | Direct action (pointing, gesture shortcut, key shortcut, vocal shortcut) | 8 |
