ISO/TR 25555:2024-01 (E)

Ageing societies - Accessibility and usability considerations for home healthcare products, related services and environments

Contents

Page

Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 General considerations for increasing accessibility and usability **2**
4.1 Safety and security 2
4.2 Cleanliness, disinfection and sterilization 3
4.3 Independence and autonomy of care recipients 3
4.4 Accessibility in general 3

5 Considerations on home healthcare products for increasing accessibility and usability **4**
5.1 Operation 4
5.1.1 General considerations 4
5.1.2 Specific considerations 5
5.2 Information and marking 6
5.2.1 General considerations 6
5.2.2 Specific considerations 7

6 Considerations on services related to use of home healthcare products for increasing accessibility and usability **10**
6.1 General considerations 10
6.2 Specific considerations 11

7 Considerations on environments for use of home healthcare products for increasing accessibility and usability **12**
7.1 General considerations 12
7.2 Specific considerations 12
7.2.1 Lighting environment 12
7.2.2 Sound environment 13
7.2.3 Thermal and air quality environment 13
7.2.4 Others 13

Annex A (informative) **Major home healthcare products and users** **15**

Annex B (informative) **Examples of home healthcare products** **18**

Bibliography **24**
