

ISO/TS 16710-1:2024-09 (E)

Ergonomics methods - Part 1: Feedback method - A method to understand how end users perform their work with machines

Contents	Page
Foreword.....	iv
Introduction.....	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 General principles	4
5 Feedback method	5
5.1 The “Feedback method” steps.....	5
5.2 Selection of the machine to be investigated.....	5
5.3 Collection of documentation and preparation of a machine dossier.....	6
5.4 Identification of companies where the machine is regularly used.....	6
5.5 Inspection of work places.....	6
5.6 Feedback Method Work Groups and work analysis with skilled users of the machine.....	7
5.6.1 Preparation for meetings.....	7
5.6.2 Work analysis with skilled end-users of the machine.....	8
5.7 Written report of the Feedback Method Work Group results and their validation.....	9
5.8 Project overview and final technical report.....	10
Annex A (informative) Existing results	11
Annex B (informative) Inspection form “Combine Harvester”	15
Annex C (informative) Work phases and tasks/activities “Combine Harvesters”	25
Annex D (informative) Extract from report of the FMWG “Combine Harvester” — Italy	27
Annex E (informative) Extract of recommended amendments to ISO 4254-7:2009 “Agricultural machinery — Safety — Part 7: Combine harvesters, forage harvesters and cotton harvesters” from the application of the “Feedback Method”	28
Bibliography	30
