## Ergonomics of the thermal environment - Instruments for measuring and monitoring physical quantities

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vi          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....  | 1           |
| 3                  | Terms and definitions .....   | 1           |
| 4                  | Symbols and abbreviation .....  | 1           |
| 5                  | General .....   | 2           |
| 5.1                | Specifications and methods .....  | 2           |
| 5.2                | The heat exchanges between human body system and its environment .....  | 2           |
| 6                  | Physical quantities characterizing heat exchanges .....   | 3           |
| 6.1                | General .....   | 3           |
| 6.2                | Basic physical quantities .....   | 3           |
| 6.2.1              | Quantities .....  | 3           |
| 6.2.2              | Air temperature .....   | 3           |
| 6.2.3              | Radiation .....   | 3           |
| 6.2.4              | Plane radiant temperature .....   | 4           |
| 6.2.5              | Dew point temperature .....   | 4           |
| 6.2.6              | Relative humidity .....   | 4           |
| 6.2.7              | Surface temperature .....   | 4           |
| 6.2.8              | Air velocity .....  | 4           |
| 6.2.9              | Globe temperature .....   | 4           |
| 6.2.10             | Psychrometric wet-bulb temperature .....  | 4           |
| 6.2.11             | Natural wet-bulb temperature .....  | 4           |
| 6.3                | Derived physical quantities .....   | 5           |
| 6.3.1              | General .....   | 5           |
| 6.3.2              | Mean radiant temperature .....  | 5           |
| 6.3.3              | Radiant temperature asymmetry .....   | 5           |
| 6.3.4              | Operative temperature .....   | 5           |
| 6.3.5              | Water vapour partial pressure .....   | 6           |
| 6.3.6              | Humidity ratio .....  | 6           |
| 6.3.7              | Turbulence intensity .....  | 6           |
| 7                  | The characteristics of physical quantity measuring instruments .....  | 6           |
| 7.1                | General .....   | 6           |
| 7.2                | Characteristics of instruments for measuring the basic quantities .....   | 6           |
| 7.3                | Characteristics of integrating types of measuring instruments .....   | 8           |
| 8                  | Specifications relating to measuring methods .....  | 9           |
| 8.1                | General .....   | 9           |
| 8.2                | Specifications relating to variations in the physical quantities within the space surrounding the subject ..... | 9           |
| 8.3                | Specifications relating to the variations in the physical quantities with time .....                            | 10          |
| 9                  | Specifications relating to monitoring methods .....   | 11          |

|                              |  |           |
|------------------------------|--|-----------|
| <b>10</b>                    | <b>Measurement uncertainty .....</b>   | <b>11</b> |
| <b>11</b>                    | <b>Specifications related to the processing of measurement results .....</b> | <b>11</b> |
| <b>11.1</b>                  | <b>Spatial maps of measured data .....</b>                                   | <b>12</b> |
| <b>Annex A (informative)</b> | <b>Measurement of air temperature .....</b>                                  | <b>13</b> |
| <b>Annex B (informative)</b> | <b>Measurement and calculation of the mean radiant temperature .....</b>     | <b>15</b> |
| <b>Annex C (informative)</b> | <b>Measurement of plane radiant temperature .....</b>                        | <b>26</b> |
| <b>Annex D (informative)</b> | <b>Measurement of the absolute humidity of the air .....</b>                 | <b>32</b> |
| <b>Annex E (informative)</b> | <b>Measurement of air velocity .....</b>                                     | <b>39</b> |
| <b>Annex F (informative)</b> | <b>Measurement of surface temperature .....</b>                              | <b>42</b> |
| <b>Annex G (informative)</b> | <b>Measurement of operative temperature .....</b>                            | <b>44</b> |
| <b>Annex H (informative)</b> | <b>Measurement of the natural wet-bulb temperature .....</b>                 | <b>46</b> |
| <b>Bibliography .....</b>    |  | <b>48</b> |
