Multivariate analysis using anthropometric data and a virtual fit tool

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Univariate vs. multivariate analysis		2
5 Virtual fit tests (VFTs)		2
6 Multivariate design		3
7 Other considerations		4
7.1 General		4
7.2 Data availability		4
7.3 Cost of disaccommodation		4
7.4 Postural variability and preference		4
Annex A (informative) Details on univariate and multivariate analyses		5
Bibliography		8
