

DIN EN ISO 15535:2003-10 (E)

General requirements for establishing anthropometric databases (ISO 15535:2003)

Contents	Page
Foreword	2
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 Data collection design	6
4.1 General	6
4.2 Definitions, techniques and conditions of measurement	6
4.3 Sampling techniques	7
5 Data-collection requirements	7
5.1 Basic demographic description of subjects	7
5.2 Detection and treatment of measurement errors	7
5.3 Instrument accuracy	7
5.4 Sample composition	7
5.5 Sample size	7
5.6 Data-storage system	8
5.7 Type of clothing	8
5.8 Measurer training and quality control	8
5.9 Diurnal variation	8
6 Database format	8
7 Database contents	9
7.1 Required background data	9
7.2 Recommended background data	9
7.3 Anthropometric data	9
7.4 Complementary data	9
8 Anthropometric data sheets	9
9 Statistical processing	9
Annex A (normative) Method for estimating the number of subjects needed on a sample	11
Annex B (normative) Anthropometric data sheet	14
Annex C (informative) Example of an anthropometric data sheet	16
Annex D (informative) Method of calculating decimal-notation date and age	17
Annex E (normative) Age stratification at specified growth period	19
Annex F (normative) Procedure for preparing data and statistics	20
Annex G (informative) Recommended scientific and technical objectives for setting up internationally compatible databases	21
Annex H (informative) Application of measurements	22
Bibliography	22
