Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Initial workstation layout considerations 3

5 Factors determining control workstation design 5
5.1 User population 5
5.1.1 General user considerations 5
5.1.2 User requirements 5
5.2 Visual tasks 8
5.2.1 General visual considerations 8
5.2.2 General visual recommendations 8
5.3 Auditory tasks 9
5.3.1 General auditory considerations 9
5.3.2 General auditory requirements and recommendations 9
5.4 Working postures 9
5.4.1 Posture considerations 9
5.4.2 Posture requirements and recommendations 10

6 Control workstation layout 12
6.1 General layout considerations 12
6.1.1 Displays 12
6.1.2 Controls 13
6.2 Layout requirements 13
6.2.1 Displays 13
6.2.2 Controls 15
6.2.3 Other workstation tasks 17
6.2.4 General 17

7 Control workstation dimensions 17
7.1 Dimension considerations 17
7.2 Seated control workstations 17
7.3 Standing control workstations 18
7.4 Sit-stand control workstations 18

Annex A (informative) Arranging displays and control workstations 19
