

DIN EN ISO 10940:2010-01 (E)

Ophthalmic instruments - Fundus cameras (ISO 10940:2009)

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Requirements	5
4.1	General	5
4.2	Optical properties	5
4.3	Construction and function	6
4.4	Optical radiation hazard with fundus cameras	6
5	Test methods for checking the optical properties	7
5.1	General	7
5.2	Test target arrangement	7
5.3	Checking the resolving power of the fundus camera optics	8
5.4	Checking the angular field of view	8
5.5	Checking the magnification of the image	8
5.6	Checking the pixel pitch of a sensor on the fundus	9
6	Accompanying documents	9
7	Marking	9
Annex A (normative)	Guidance for the measurement and calculation of the light hazard related values	10
Annex B (informative)	Guidance for safe use of the fundus camera	15
