ISO 10993-9:2009-12 (E)

Biological evaluation of medical devices - Part 9: Framework for identification and quantification of potential degradation products

Contents

Page

Foreword iv

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Principles for design of degradation studies 2
4.1 General 2
4.2 Preliminary considerations 3
4.3 Study design 3
4.4 Characterization of degradation products from medical devices 4

5 Study report 4

Annex A (normative) Consideration of the need for degradation studies 5

Annex B (informative) Biodegradation study considerations 7

Bibliography 9
