Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Intended performance 5
4.1 General 5
4.2 Intended purpose 6
4.3 Functional characteristics 6
4.4 Intended conditions of use 7

5 Design attributes 7

6 Materials 8

7 Design evaluation 8
7.1 General 8
7.2 Pre-clinical evaluation 8
7.3 Clinical evaluation 8
7.4 Post-market surveillance 8

8 Manufacturing 9

9 Sterilization 9

10 Packaging 9

11 Information supplied by manufacturer 9
11.1 General 9
11.2 Labelling 9
11.3 Instructions for use 9
11.4 Restrictions on combinations 9
11.5 Marking on implant 9
11.6 Marking for special purposes 9

Annex A (informative) Correspondence of the clauses of this International Standard to the fundamental principles outlined in ISO/TR 14283 10

Annex B (informative) ISO standards referring to implants and associated instruments found acceptable through clinical use for given applications in osteosynthesis 11

Annex C (informative) ISO Standards referring to materials found acceptable through proven clinical use 14

Annex D (informative) Standards related to testing and design evaluation 16

Bibliography 17

Annex ZA (informative) Relationship between this International Standard and the Essential Requirements of EU Directive 93/42/EEC as amended by EU Directive 2007/47/EC 18
