Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Requirements 5
4.1 General 5
4.2 Optical requirements 5
4.3 Construction 7
4.4 Material and surface quality 8

5 Test methods 8
5.1 General 8
5.2 Checking the optical requirements 8
5.3 Checking material and surface quality 9
5.4 Checking construction 9

6 Functional marking 9

7 Information supplied by the manufacturer 9
7.1 Accompanying documents 9
7.2 Identification of the trial case lens set 10

Annex A (informative) **Example of test device for checking accuracy of trial case lens elements** 11

Annex B (informative) **Example of test device and method for checking material and surface quality** 13
