Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 General requirements 5

5 Determination of finished-product stability 6
5.1 Objective 6
5.2 Study methods 6
5.2.1 General 6
5.2.2 Real-time studies 6
5.2.3 Studies under varying storage conditions 6
5.3 Description of the product under study 7
5.3.1 Number and nature of the batches tested 7
5.3.2 Primary container 7
5.4 Characteristics 8
5.4.1 General 8
5.4.2 Physical characteristics of the finished product 8
5.4.3 Microbial characteristics 8
5.4.4 Chemical characteristics of the finished product 8
5.4.5 Characteristics of primary container interactions 8
5.4.6 Performance characteristics 8
5.5 Evaluation methods 9
5.6 Presentation of results 9
5.7 Discussion, interpretation and conclusions 9
5.8 Ongoing stability 9

Annex A (informative) Example of a stability testing plan for the finished contact lens care product 10
