

# DIN EN ISO 22665:2013-04 (E)

## Ophthalmic optics and instruments - Instruments to measure axial distances in the eye (ISO 22665:2012)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	Requirements .....	6
5	Test methods .....	6
5.1	General .....	6
5.2	True parameters of the test bodies .....	6
5.3	Measurements with ultrasound biometry instruments .....	7
5.4	Measurements with optical biometry instruments .....	7
6	Accompanying documents .....	7
7	Marking .....	7
Annex A (normative) Test bodies and evaluation of measurements .....		8
A.1	Test bodies .....	8
A.1.1	General .....	8
A.1.2	Material properties .....	8
A.1.3	Geometry of test cylinders .....	9
A.2	Evaluation of measurements .....	10
A.2.1	Measurements using ultrasound biometry instruments .....	10
A.2.2	Measurements using optical biometry instruments .....	10
Bibliography .....		11
