Foreword iv

1 Scope 1

2 Termsanddefinitions 1

3 Optical radiation hazards 2
3.1 Risk assessment 2
3.2 Control measures 2

4 Eye protection 3
4.1 Protective eyewear 3
4.2 Filter protection factor (FPF) 3
4.3 Luminous transmittance and colour perception 4

5 User comfort and secondary safety issues 4
5.1 Peripheral leakage 4
5.2 Secondary reflections from eyewear frame and filters 4
5.3 Quality of filters and clarity of vision 4
5.4 Exposure to bright flashes below ELVs 4
5.5 Overheating of eyewear 5
5.6 Additional considerations for auto darkening filters 5

Annex A (informative) Ocular exposure to optical radiation 6

Annex B (informative)Retinalthermalhazard--Assessmentflowchart 7

Annex C (informative) Retinal thermal hazard -- Example calculation 8

Annex D (informative) Protective eyewear for the patient/client 12

Annex E (informative) Protective eyewear for the operator 13

Annex F (informative) Filter protection factor 14

Annex G (informative) Luminous transmittance 16

Annex H (informative) Colour perception of ILS protective eyewear -- Example 17
