ISO/TR 16379:2014-03 (E)

Tissue-engineered medical products - Evaluation of anisotropic structure of articular cartilage using DT (Diffusion Tensor)-MR Imaging

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Termsanddefinitions 1

3 Principle 3

4 Diffusion tensor magnetic resonance imaging (DT-MRI) data observation in articular cartilage 3
4.1 DT-MRI measurement process 3
4.2 Notes on setting of DT-MRI imaging parameters for articular cartilage 4
4.3 Measurement indices for structural evaluation of articular cartilage by DT-MRI 5

Annex A (informative) Measurement Results 10

Bibliography 23
