Cardiovascular implants and extracorporeal systems - Cardiovascular absorbable implants

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Implant considerations	2
4.1	Classification	2
4.2	Intended clinical performance	3
4.3	Intended clinical use	3
4.4	Materials	3
4.5	Packaging, labelling, and sterilization	3
4.6	Risk management	6
5	Design verification and validation--Testing and analysis	7
5.1	Overview	7
5.2	Considerations in the characterization and assessment of material and implant properties	9
5.3	in vitro procedural assessment	12
5.4	in vitro degradation assessment (post procedure)	13
5.5	in vitro-in vivo correlation (IVIVC)	15
5.6	Biocompatibility	16
5.7	Pre-clinical in vivo evaluation	17
5.8	Clinical considerations specific to absorbable implants	19
5.9	Shelf life considerations	21
Annex A (informative) Nomenclature of absorb, degrade and related terms		23
Bibliography		24
