## Respiratory protective devices - Methods of test and test equipment - Part 1: Determination of inward leakage

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Prerequisites .....	2
5	General test requirements .....	2
6	Principle .....	2
7	Human test panel .....	4
7.1	General .....	4
7.2	Selection of test subjects .....	5
8	Test agents .....	5
9	Apparatus .....	5
10	RPD preparation .....	6
10.1	General .....	6
10.2	Sample tubes and probe .....	6
10.3	Sample flow rates .....	10
10.4	Filtering RPD preparation .....	10
10.5	Supplied breathable gas devices .....	12
10.6	Supplied breathable gas devices incorporating additional filtration capacity (combined RPD) .....	12
11	Method(s) .....	12
11.1	Test method -- General .....	12
11.2	Test method 1: Sulfur hexafluoride (SF <sub>6</sub> ) .....	13
11.3	Test method 2: Sodium chloride (NaCl) .....	16
11.4	Test method 3: Corn oil aerosol .....	23
12	Test report .....	25
13	Uncertainty of measurement .....	25
Annex A (normative) Application of uncertainty of measurement .....		26
Annex B (normative) Test exercise regime .....		28
Annex C (normative) Material porosity test .....		32
Annex D (normative) Human test panel .....		34
