## Optics and photonics - Environmental test methods - Part 17: Combined contamination, solar radiation

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	General information and test conditions .....	1
3.1	General .....	1
3.2	Specimens .....	2
4	Conditioning .....	2
4.1	Conditioning method 90: Basic cosmetic substances and artificial hand sweat, combined with solar radiation .....	2
4.2	Conditioning method 91: Fuels and other resources for aircraft, naval vessels, and land vehicles, combined with solar radiation .....	2
5	Procedure .....	2
5.1	General .....	2
5.2	Preconditioning, recovery, evaluation, and general level for acceptance .....	2
6	Environmental test code .....	4
7	Specification .....	5
