Optics and photonics - Environmental test methods - Part 17: Combined contamination, solar radiation

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	Normative references	1
3	General information and test conditions	1
3.1	General	1
3.2	Specimens	2
4	Conditioning	2
4.1	Conditioning method 90: Basic cosmetic substances and artificial hand sweat, combined with solar radiation	2
4.2	Conditioning method 91: Fuels and other resources for aircraft, naval vessels, and land vehicles, combined with solar radiation	2
5	Procedure	2
5.1	General	2
5.2	Preconditioning, recovery, evaluation, and general level for acceptance	2
6	Environmental test code	4
7	Specification	5
