

# ISO 16672:2015-08 (E)

## Ophthalmic implants - Ocular endotamponades

---

| <b>Contents</b>              |   | <b>Page</b> |
|------------------------------|---|-------------|
| Foreword .....               |   | iv          |
| <b>1</b>                     | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>                     | <b>Normative references .....</b>                             | <b>1</b>    |
| <b>3</b>                     | <b>Terms and definitions .....</b>                            | <b>1</b>    |
| <b>4</b>                     | <b>Intended performance .....</b>                             | <b>3</b>    |
| <b>5</b>                     | <b>Design attributes .....</b>                                | <b>3</b>    |
| 5.1                          | General .....   | 3           |
| 5.2                          | Chemical and biological contaminants .....                    | 3           |
| 5.3                          | Chemical description .....                                    | 3           |
| 5.4                          | Concentration of the components .....                         | 4           |
| 5.5                          | Density .....   | 4           |
| 5.6                          | Gaseous expansion .....                                       | 4           |
| 5.7                          | Interfacial tension .....                                     | 4           |
| 5.8                          | Kinematic viscosity .....                                     | 4           |
| 5.9                          | Dynamic viscosity .....                                       | 4           |
| 5.10                         | Molecular mass distribution .....                             | 4           |
| 5.11                         | Particulates .....  | 4           |
| 5.12                         | Refractive index .....  | 4           |
| 5.13                         | Spectral transmittance .....                                  | 5           |
| 5.14                         | Surface tension .....   | 5           |
| 5.15                         | Vapour pressure .....   | 5           |
| <b>6</b>                     | <b>Design evaluation .....</b>                                | <b>5</b>    |
| 6.1                          | General .....   | 5           |
| 6.2                          | Evaluation of biological safety .....                         | 5           |
| 6.2.1                        | General .....   | 5           |
| 6.2.2                        | Bacterial endotoxins test .....                               | 5           |
| 6.2.3                        | Intraocular implantation test .....                           | 5           |
| 6.2.4                        | Ethylene oxide .....  | 6           |
| 6.3                          | Clinical investigation .....                                  | 6           |
| <b>7</b>                     | <b>Sterilization .....</b>                                    | <b>6</b>    |
| <b>8</b>                     | <b>Product stability .....</b>                                | <b>7</b>    |
| <b>9</b>                     | <b>Integrity and performance of the delivery system .....</b> | <b>7</b>    |
| <b>10</b>                    | <b>Packaging .....</b>  | <b>7</b>    |
| 10.1                         | Protection from damage during storage and transport .....     | 7           |
| 10.2                         | Maintenance of sterility in transit .....                     | 7           |
| <b>11</b>                    | <b>Information supplied by the manufacturer .....</b>         | <b>7</b>    |
| <b>Annex A (normative)</b>   | <b>Intraocular implantation test .....</b>                    | <b>9</b>    |
| <b>Annex B (informative)</b> | <b>Clinical investigation .....</b>                           | <b>10</b>   |
| <b>Bibliography .....</b>    |   | <b>13</b>   |
