ISO 11491:2017-07 (E)

Implants for surgery - Determination of impact resistance of ceramic femoral heads for hip joint prostheses

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Principle 2

5 Apparatus and equipment 2

6 Procedure 5
6.1 General 5
6.2 Test method for impact resistance (cyclic strength) 6
6.2.1 Setting the test specimen 6
6.2.2 Applying an impact 6
6.2.3 Load cell data sampling 6
6.3 Test method for the cyclic load-release burst test 6
6.3.1 Setting the test specimen 6
6.3.2 Loading of the specimen 6
6.3.3 Termination of the load-release cycles 7
6.3.4 Examination of the specimen 7

7 Impact test: Calculation of an impact energy 7

8 Test report 7
