ISO 5834-3:2019 (E)

Implants for surgery — Ultra-high-molecular-weight polyethylene — Part 3: Accelerated ageing methods

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Classification, designation and coding

5 Material

6 Apparatus and test specimens

7 Validation of apparatus

8 Conditioning

9 Significance and use

10 Accelerated ageing procedure

11 Reporting

- 11.1 Test sample preparation
- 11.2 Chronology
- 11.3 Test sample storage conditions
- 11.4 Ageing method
