## Optics and photonics - Interferometric measurement of optical elements and optical systems - Part 2: Measurement and evaluation techniques

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | v           |
| Introduction ..... |  | vi          |
| <b>1</b>           | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>           | <b>Normative references .....</b>  | <b>1</b>    |
| <b>3</b>           | <b>Terms and definitions .....</b>   | <b>1</b>    |
| <b>4</b>           | <b>Measurement objects .....</b>   | <b>1</b>    |
| 4.1                | Surfaces .....   | 1           |
| 4.1.1              | Boundary surfaces of optical components .....  | 1           |
| 4.1.2              | Reflection degree .....  | 2           |
| 4.1.3              | Roughness .....  | 2           |
| 4.1.4              | Topology of the regions (discontinuous regions) .....  | 2           |
| 4.1.5              | Continuity of the surface; gradient of the surface .....   | 2           |
| 4.1.6              | Stiffness of mirrors; finite-element-calculations .....  | 3           |
| 4.1.7              | Temperature homogeneity of mirrors .....   | 3           |
| 4.1.8              | Examples of measurement objects .....  | 3           |
| 4.2                | Optical components in transmission .....   | 3           |
| 4.2.1              | Single-pass versus double-pass testing .....   | 3           |
| 4.2.2              | Windows (wavefront aberrations in transmission) .....  | 3           |
| 4.2.3              | Prisms (wavefront aberrations and angle error) .....   | 3           |
| 4.2.4              | Influence of temperature on the refractive index .....   | 3           |
| 4.3                | Optical systems .....  | 4           |
| 4.3.1              | Single-pass versus double-pass testing .....   | 4           |
| 4.3.2              | Examination in the pupil .....   | 4           |
| 4.3.3              | Chromatic aberrations .....  | 4           |
| 4.4                | Indirect examination of the function of optical elements .....   | 4           |
| 4.4.1              | Examination with different wavelengths .....   | 4           |
| 4.4.2              | Examination with different beam paths .....  | 4           |
| 4.4.3              | Tolerance range .....  | 4           |
| <b>5</b>           | <b>Hardware aspects of an interferometer and test environment .....</b>  | <b>4</b>    |
| 5.1                | General .....  | 4           |
| 5.2                | Construction principles and influences on the quality of measurements .....  | 6           |
| 5.2.1              | General .....  | 6           |
| 5.2.2              | Intrinsic instrument errors and the principle of common path .....   | 7           |
| 5.2.3              | Optical compensation of errors .....   | 8           |
| 5.2.4              | Mathematical compensation of errors .....  | 9           |
| 5.2.5              | Contrast as a function of the irradiance in test and reference arm: methods to attain equilibrium in both arms ..... | 10          |
| 5.2.6              | Contrast as a function of performance of the light source .....  | 14          |
| 5.3                | Test environment .....   | 16          |
| 5.3.1              | General .....  | 16          |
| 5.3.2              | Influence of vibrations .....  | 17          |
| 5.3.3              | Influence of gravity and support of the test piece .....   | 18          |
| <b>6</b>           | <b>Methods for evaluating the optical path difference .....</b>  | <b>20</b>   |
| 6.1                | General .....  | 20          |

|       |   |    |
|-------|---|----|
| 6.2   | Visual inspection of interferograms .....   | 20 |
| 6.2.1 | General .....   | 20 |
| 6.2.2 | Example 1 -- Fizeau interferometer .....  | 20 |
| 6.2.3 | Example 2 -- Twyman-Green interferometer .....                                      | 24 |
| 6.3   | Manual evaluation of interferograms .....   | 26 |
| 6.4   | Phase measurements with temporal carrier .....                                      | 28 |
| 6.4.1 | General .....   | 28 |
| 6.4.2 | Heterodyne interferometry .....   | 29 |
| 6.4.3 | Phase lock interferometry (PLI) .....   | 30 |
| 6.4.4 | Synchronous detection and phase-shifting interferometry .....                       | 30 |
| 6.5   | Phase measurements with spatial carrier .....                                       | 34 |
| 6.5.1 | Fringe analysis by Fourier transform operations .....                               | 34 |
| 6.5.2 | Spatially synchronous fringe analysis .....   | 35 |
| 6.6   | Removal of phase ambiguities (phase unwrapping) .....                               | 37 |
| 6.7   | Registration of wavefronts; coordinate systems, coordinate system definition .....  | 38 |
| 6.8   | Polynomial and other representations of wavefronts .....                            | 39 |
| 6.8.1 | Representation of phase data .....  | 39 |
| 6.8.2 | Zernike polynomials for a circular boundary .....                                   | 40 |
| 6.8.3 | Use of Zernike polynomials for an elliptical boundary .....                         | 40 |
| 6.8.4 | Zernike-Tatian polynomials for a circular shape with a central hole (annular) ..... | 41 |
| 6.8.5 | Legendre polynomials for a rectangle boundary .....                                 | 41 |
| 6.8.6 | Orthogonal functions on "unusual areas" .....                                       | 41 |
| 7     | Test reports and calibration certificates .....                                     | 41 |
| 7.1   | General .....   | 41 |
| 7.2   | Content of test reports and calibration certificates .....                          | 42 |
| 7.3   | Test reports .....  | 42 |
| 7.4   | Calibration certificates .....  | 43 |
| 7.4.1 | Basics .....  | 43 |
| 7.4.2 | Specification .....   | 43 |
| 7.4.3 | Adjustment or repair .....  | 43 |
| 7.5   | Opinions and interpretations .....  | 43 |
| 7.6   | Electronic transmission of results .....  | 43 |
| 7.7   | Format of reports and certificates .....  | 44 |
| 7.8   | Amendments to test reports and calibration certificates .....                       | 44 |
| 8     | Data format .....   | 44 |
|       | Annex A (informative) Orthogonal polynomials .....                                  | 45 |
|       | Bibliography .....  | 62 |
