ISO 11979-5:2020 (E)

Ophthalmic implants — Intraocular lenses — Part 5: Biocompatibility

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 General requirements applying to biocompatibility evaluation of intraocular lenses

5 Physicochemical tests

- 5.1 General
- 5.2 Physical/Chemical description
- 5.3 Exhaustive extraction test
- 5.4 Test for leachables
- 5.5 Test for hydrolytic stability
- 5.6 Photostability test
- 5.7 Nd-YAG laser exposure test
- 5.8 Evaluation of insoluble inorganics

6 Biological tests

- 6.1 General
- 6.2 Test for cytotoxicity
- 6.3 Tests for sensitization
- 6.4 Tests for genotoxicity
- 6.5 Test for local effects
- 6.6 Ocular implantation test

Annex A (normative) Exhaustive extraction test

- A.1 Purpose
- A.2 General considerations
- A.3 Principle
- A.4 Test material
- A.5 Control material
- A.6 Reagents
- A.7 Apparatus
- A.8 Test procedure
- A.8.1 Treatment
- A.8.2 Analysis of the test material
- A.8.3 Analysis of extracts
- A.9 Test report

Annex B (normative) Test for leachables

- B.1 Purpose
- B.2 General considerations
- B.3 Test material
- B.4 Control material
- B.5 Apparatus and materials
- B.6 Test procedure
- B.6.1 Extraction
- B.6.2 Analysis of extracts
- B.6.3 Analysis of the test material

B.7 Test report

Annex C (normative) Hydrolytic stability

C.1 Purpose
C.2 General considerations
C.3 Test material
C.4 Control material
C.5 Apparatus and materials
C.6 Test procedure
C.6.1 Pre-treatment testing
C.6.2 Treatment
C.6.3 Analysis of the aqueous solvent after incubation
C.6.4 Analysis of the test material
C.7 Test report

Annex D (normative) Photostability test

D.1 Purpose
D.2 General considerations
D.3 Test material
D.4 Control material
D.5 Reagents
D.6 Apparatus
D.7 Test procedure
D.7.1 Treatment
D.7.2 Post exposure evaluation
D.8 Test report

Annex E (normative) Nd-YAG laser exposure test

E.1 Purpose
E.2 General considerations
E.3 Test material
E.4 Control material
E.5 Reagents
E.6 Apparatus
E.7 Test procedure
E.7.1 Treatment
E.7.2 Post exposure evaluation
E.8 Test report

Annex F (normative) Supplemental conditions of test for local effects after implantation

F.1 Supplemental conditions to testing in accordance with ISO 10993-6
F.2 Test report

Annex G (normative) Ocular implantation test

G.1 Purpose
G.2 Test material
G.3 Control material
G.4 Reagents
G.5 Apparatus and materials
G.6 Animal model
G.7 Test procedure
G.8 Intra-operative observations
G.9 Implantation period
G.10 Test evaluation
G.10.1 Post-operative evaluations
G.10.2 Evaluation of enucleated eyes
G.10.3 Evaluation of explanted lenses
G.11 Test report
