ISO/TS 37137-1:2021 (E)

Biological evaluation of absorbable medical devices — Part 1: General requirements

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 General considerations

5 Test article considerations

6 Sterilization considerations

7 Drug-device combination product considerations

8 Evaluation of absorbable medical devices in the context of the ISO 10993 series

- 8.1 General
- 8.2 ISO 10993-1, evaluation and testing within a risk management process
- 8.3 ISO 10993-2, animal welfare requirements
- 8.4 ISO 10993-3, tests for genotoxicity, carcinogenicity, and reproductive toxicity
- 8.5 ISO 10993-4, selection of tests for interactions with blood
- 8.6 ISO 10993-5, tests for in vitro cytotoxicity
- 8.7 ISO 10993-6, Tests for local effects after implantation
- 8.8 ISO 10993-7, ethylene oxide sterilization residuals
- 8.9 ISO 10993-9, framework for identification and quantification of potential degradation products
- 8.10 ISO 10993-10, tests for skin sensitization
- 8.11 ISO 10993-11, tests for systemic toxicity
- 8.12 ISO 10993-12, sample preparation and reference materials
- 8.13 ISO 10993-13, identification and quantification of degradation products from polymeric medical devices
- 8.14 ISO 10993-14, identification and quantification of degradation products from ceramics
- 8.15 ISO 10993-15, identification and quantification of degradation products from metals and alloys
- 8.16 ISO 10993-16, toxicokinetic study design for degradation products and leachables
- 8.17 ISO 10993-17, establishment of allowable limits for leachable substances
- 8.18 ISO 10993-18, chemical characterization of materials
- 8.19 ISO/TS 10993-19, physico-chemical, morphological and topographical characterization of materials
- 8.20 ISO/TS 10993-20, principles and methods for immunotoxicology testing of medical devices
- 8.21 ISO/TR 10993-22, guidance on nanomaterials
- 8.22 ISO 10993-23, tests for irritation
- 8.22.1 General
- 8.22.2 Tests for irritation

Annex A (informative) Nomenclature of absorb, degrade and related terms1 1 Adopted and modified with permission from ASTM F2902-16[4]. Copyright ASTM International. The most current edition can be obtained from www.astm.org.
