ISO 5910:2024-07 (E)

Cardiovascular implants and extracorporeal systems - Cardiac valve repair devices

Contents

Page

Foreword ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **2**

4 Abbreviated terms **9**

5 Fundamental requirements **10**
5.1 General 10
5.2 Risk management 10

6 Device design **10**
6.1 Intended use and indication for use 10
6.2 Design inputs 10
6.2.1 General 10
6.2.2 Operational specifications 10
6.2.3 Functional, performance and safety requirements 12
6.2.4 Usability 13
6.2.5 Packaging, labelling and sterilization 13
6.3 Design outputs 13
6.4 Design transfer (manufacturing verification and validation) 13

7 Design verification testing and analysis, and design validation **14**
7.1 General requirements 14
7.2 In vitro assessment 14
7.2.1 General 14
7.2.2 Test articles, sample selection, test conditions and reporting requirements 14
7.2.3 Device material property assessment 16
7.2.4 Device durability assessment 17
7.2.5 Device corrosion assessment 17
7.2.6 Design specific testing 17
7.2.7 Visibility 17
7.2.8 Simulated use assessment 18
7.2.9 Human factors and usability assessment 18
7.2.10 Device MRI safety 18
7.3 Preclinical in vivo evaluation 18
7.3.1 General 18
7.3.2 Overall requirements 18
7.3.3 Methods 20
7.3.4 Test report 21
7.4 Clinical investigations 22
7.4.1 General 22
7.4.2 Study considerations 22
7.4.3 Study end points 24
7.4.4 Ethical considerations 25
7.4.5 Distribution of subjects and investigators 25
7.4.6 Statistical considerations including sample size and duration 26
7.4.7 Patient selection criteria 27
7.4.8 Clinical data requirements 28
7.4.9 Clinical investigation analysis and reporting 31
7.4.10 Post-market clinical follow-up 31

8 Manufacturing verification and validation **32**
Annex A (informative) **Rationale for the provisions of this document** **33**
Annex B (informative) **Types and examples of heart valve repair devices and delivery systems** **36**
Annex C (normative) **Packaging** **43**
Annex D (normative) **Product labels, instructions for use and training** **44**
Annex E (normative) **Sterilization** **47**
Annex F (informative) **Heart valve repair system characteristics** **48**
Annex G (informative) **Example of a transcatheter heart valve repair system hazard analysis** **50**
Annex H (informative) **In vitro test guidelines for paediatric devices** **51**
Annex I (informative) **Identification of boundary conditions** **54**
Annex J (informative) **Test platforms for in vitro testing** **58**
Annex K (informative) **Considerations for device material properties undergoing alterations post implantation** **60**
Annex L (informative) **Corrosion assessment** **61**
Annex M (informative) **Durability assessment** **64**
Annex N (informative) **Additional device design evaluation considerations** **71**
Annex O (normative) **Delivery system design evaluation** **74**
Annex P (informative) **Preclinical ex vivo and in vivo evaluations** **76**
Annex Q (normative) **Adverse event classification during clinical investigation** **80**
Annex R (informative) **Multimodality imaging of TAVr, TMVr and TTVr (pre-, peri- and post-implantation)** **86**
Annex S (informative) **Clinical investigation end points for valve repair devices: Suggestions for end points and their timing** **91**
Bibliography **95**
