|------------------------------|--|-------------|
| Foreword.....                |  | iv          |
| Introduction.....            |  | v           |
| <b>1</b>                     | <b>Scope.....</b>  | <b>1</b>    |
| <b>2</b>                     | <b>Normative references.....</b>   | <b>1</b>    |
| <b>3</b>                     | <b>Terms and definitions.....</b>  | <b>1</b>    |
| <b>4</b>                     | <b>Requirements.....</b>   | <b>5</b>    |
| 4.1                          | General.....   | 5           |
| 4.2                          | Categorization of devices.....   | 6           |
| 4.3                          | Allowable limits.....  | 6           |
| 4.3.1                        | General.....   | 6           |
| 4.3.2                        | Limited exposure devices.....  | 8           |
| 4.3.3                        | Prolonged exposure devices.....  | 9           |
| 4.3.4                        | Long-term exposure devices.....  | 9           |
| 4.3.5                        | Special situations.....  | 11          |
| 4.3.6                        | Tolerable contact level.....   | 12          |
| 4.4                          | Determination of EO and ECH residuals.....   | 12          |
| 4.4.1                        | Procedure.....   | 12          |
| 4.4.2                        | Test method validation.....  | 12          |
| 4.4.3                        | Product sampling.....  | 12          |
| 4.4.4                        | Sample/fluid ratios.....   | 13          |
| 4.4.5                        | Product extraction.....  | 13          |
| 4.4.6                        | Multi-device systems.....  | 13          |
| <b>5</b>                     | <b>Product release.....</b>  | <b>13</b>   |
| 5.1                          | General.....   | 13          |
| 5.2                          | Batch release of products.....   | 14          |
| 5.3                          | Release of products at specified minimum aeration time.....  | 14          |
| 5.4                          | Procedure for product release using residual dissipation curves.....   | 14          |
| <b>6</b>                     | <b>Adoption of products into established aeration family.....</b>  | <b>15</b>   |
| <b>7</b>                     | <b>Change evaluation.....</b>  | <b>15</b>   |
| <b>Annex A</b> (informative) | <b>Guidance for the application of this document for the determination of EO and ECH residuals in medical devices.....</b> | <b>16</b>   |
| <b>Annex B</b> (informative) | <b>Factors influencing product residuals.....</b>  | <b>27</b>   |
| <b>Annex C</b> (informative) | <b>Rationale for the provisions of this document.....</b>  | <b>30</b>   |
| <b>Annex D</b> (informative) | <b>Establishment of allowable limits for EO.....</b>   | <b>38</b>   |
| <b>Annex E</b> (informative) | <b>Establishment of allowable limits for ECH.....</b>  | <b>56</b>   |
| <b>Annex F</b> (informative) | <b>Ethylene glycol.....</b>  | <b>66</b>   |
| <b>Annex G</b> (normative)   | <b>Evaluation of gas chromatograms.....</b>  | <b>70</b>   |
| <b>Annex H</b> (informative) | <b>Gas chromatographic determination for EO and ECH.....</b>   | <b>74</b>   |
| <b>Annex I</b> (informative) | <b>Preparation of EO and ECH standards.....</b>  | <b>78</b>   |
| <b>Annex J</b> (informative) | <b>Ethylene oxide and ethylene chlorohydrin residual measuring methods.....</b>  | <b>82</b>   |
| <b>Annex K</b> (informative) | <b>Examples of product release methods.....</b>  | <b>90</b>   |
| <b>Bibliography.....</b>     |  | <b>109</b>  |
