Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Formulation 4
4.1 Composition 4
4.2 Raw materials assessment 4

5 Biocompatibility 5

6 Characterization and testing 5
6.1 Test slab preparation 5
6.2 Identification 5
6.3 Purity testing 5
6.4 Cure rate 6
6.5 Physicomechanical properties and characterization 7

7 Documentation 7
7.1 Data sheet 7
7.2 Certificate of analysis 7

Annex A (normative) Determination of substances soluble in hexane 8

Annex B (normative) Determination of volatile matter 12

Bibliography 14
