

DIN EN ISO 15004-2:2007-06 (E)

Ophthalmic instruments - Fundamental requirements and test methods - Part 2: Light hazard protection (ISO 15004-2:2007)

Contents

Page

Foreword.....	3
1 Scope	4
2 Normative references	4
3 Terms, definitions and symbols.....	4
3.1 Terms and definitions.....	4
3.2 Symbols	8
4 Classification.....	9
5 Requirements	9
5.1 General.....	9
5.2 Requirements for classification as a Group 1 instrument.....	9
5.3 Requirements for Group 2 instruments.....	10
5.4 Emission limits for determination of Group 1 classification	10
5.5 Emission limits and guideline values for Group 2 instruments	14
6 Test methods.....	19
6.1 General.....	19
6.2 Measurements made to classify instruments into Group 1 or Group 2.....	19
6.3 Group 2 instruments: Measurements	19
6.4 Determination of area	20
6.5 Group 2 instruments: Determination of time and number of pulses to reach maximum exposure guidelines	20
7 Information supplied by the manufacturer	21
Annex A (normative) Spectral weighting functions.....	23
Annex B (informative) Product-related International Standards for ophthalmic instruments to which ISO 15004-2 applies and which contain a specific light hazard section.....	29
Annex C (informative) Measurement instruments	30
Annex D (normative) Measurement methods for radiance/irradiance.....	31
Annex E (informative) Guidance on the direct measurement of irradiance	36
Annex F (informative) Classification flowchart	38
Bibliography	40
