DIN EN 15001-1:2011-02 (E)

Gas infrastructure - Gas installation pipework with an operating pressure greater than 0,5 bar for industrial installations and greater than 5 bar for industrial and non-industrial installations - Part 1: Detailed functional requirements for design, materials, construction, inspection and testing

Foreword 4

1 Scope 5

2 Normative references 7

3 Terms and definitions 12
3.1 Definitions relating to pressure 12
3.2 Definitions relating to the gas installation 13
3.3 Definition relating to means of isolation 14
3.4 Definitions relating to jointing methods 14
3.5 Definitions relating to components 15
3.6 Definitions relating to tests 16
3.7 Definition relating to testing and inspection 16
3.8 Definitions relating to assembly processes for metallic materials 16
3.9 Definitions relating to pressure regulating and metering 17

4 General 17
4.1 Quality system 17
4.2 Selection of materials 18
4.3 Protection against hazards 18
4.4 Accommodation and location of gas pressure regulating and metering systems, gas pressure compressors and gas mixing systems 19

5 Materials 20
5.1 Standards and specifications for pipes and pipe fittings 20
5.2 Ancillaries 24
5.3 Gas pressure regulating and safety systems 25

6 Design of pipework 26
6.1 General 26
6.2 Layout 27
6.3 Dimensioning 28
6.4 Pressure and wall thickness 28
6.5 Safety engineering 35
6.6 Detail engineering 39
6.7 Hot tapping carbon steel pipe 51

7 Design of pressure control systems 52
7.1 General 52
7.2 Pressure regulating system 53
7.3 Instrumentation 53
7.4 Permanent bypasses 54
7.5 Construction requirements 54
7.6 Low gas temperature 56
7.7 Gas compressors 57
7.8 Safety systems 57

8 Construction 61
8.1 Identification of the installation 61
8.2 External hazards 62
8.3 Gas pipework passing through exterior walls 62
8.4 Identification of pipework 64
8.5 Specifications and requirements for joints 65
8.6 Joint suitability 69
8.7 Connections 70
8.8 Corrosion protection 71
8.9 Handling and installation of pipework 78
8.10 Bending of pipes 80
8.11 Welding of supports and anchor points to carbon steel pipework 81
8.12 Installation of pressure regulating systems 82

9 Documentation, inspection and testing 83
9.1 General 83
9.2 Documentation 84
9.3 Inspection 84
9.4 Testing 87

Annex A (informative) Example schematic diagrams of installation options for gas pressure regulating systems 91

Annex B (informative) Examples of methods for testing 93

B.1 General 93
B.2 Strength test on metallic pipework 93
B.3 Tightness test on metallic pipework 95
B.4 Strength and tightness test on PE pipework 98

Annex C (informative) Flammable gases mixing systems 101

C.1 Reverse flow 101
C.2 Control of mixture composition 101
C.3 Matching pressures of components for mixing 103

Annex D (informative) Examples of supports 104

Annex E (normative) Materials 111

E.1 General 111
E.2 Materials with a demonstrated safe history of application in this type of equipment 112

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 97/23/EC 115
