# DIN EN 12732:2014-07 (E)

## Gas infrastructure - Welding steel pipework - Functional requirements (includes Amendment A1:2014)

## Contents

Page

Foreword ..... 6

1 Scope ..... 7

2 Normative references ..... 8

3 Terms and definitions ..... 11

4 Quality system ..... 13
4.1 General ..... 13
4.2 Welding contractors ..... 14
4.3 Welders ..... 15
4.4 Welding supervisory and coordination personnel ..... 15
4.5 Testing companies and personnel ..... 15
4.5.1 General ..... 15
4.5.2 Non-destructive testing (NDT) ..... 15
4.5.3 Destructive testing (DT) ..... 15

5 Welding consumables ..... 15

6 Production welding ..... 16
6.1 General requirements ..... 16
6.1.1 General ..... 16
6.1.2 Working area ..... 16
6.1.3 Layout of weld joints ..... 17
6.1.4 Types of weld joints ..... 17
6.1.5 Joint edge preparation ..... 17
6.1.6 Weld fit-up ..... 17
6.1.7 Different wall thickness ..... 17
6.1.8 Pipe branches and nozzles ..... 17
6.1.9 Laminations ..... 17
6.1.10 Butt welds cross joints ..... 17
6.2 Joint preparation ..... 17
6.2.1 Pipe end preparation ..... 17
6.2.2 Alignment of the joints ..... 17
6.3 Preheating ..... 18
6.4 Tacking ..... 18
6.5 Welding ..... 18
6.6 Actions after welding ..... 18
6.7 Repair of weld defects ..... 19

7 Special procedures ..... 19
7.1 General ..... 19
7.2 Attachment of structural parts ..... 19
7.3 Attachment of cathodic protection connections ..... 19
7.4 Hot-tapping and other welding work on in-service pipelines ..... 20

8 Inspection of the weld joint ..... 20
8.1 General ..... 20
8.2 Scope of inspection ..... 20
8.3 Non-destructive testing and assessment levels ..... 22

8.4 Time of inspection ... 23
8.5 Acceptance criteria ... 23
8.6 Recording of test results ... 24

9 Documentation ... 24
9.1 General ... 24
9.2 Archiving requirements ... 24

10 Specific requirements for gas infrastructure with a MOP up to and including 16 bar ... 24
10.1 General ... 24
10.2 Welders ... 24
10.3 Welding supervisory personnel ... 25
10.4 Production welding ... 25
10.4.1 General ... 25
10.4.2 Joint preparation ... 25
10.4.3 Welding ... 25
10.5 Requirements for records and documentation ... 25

11 Specific requirements for gas infrastructure with a MOP greater than 16 bar ... 26
11.1 General ... 26
11.2 Welders ... 26
11.3 Welding supervisory personnel ... 26
11.4 Qualification of welding procedures ... 26
11.4.1 General ... 26
11.4.2 Filler material requirements for welding procedure qualification ... 26
11.4.3 Impact testing ... 27
11.4.4 Transverse tensile test ... 27
11.4.5 All-weld-metal tensile test ... 28
11.5 Production welding ... 28
11.5.1 General ... 28
11.5.2 Joint preparation ... 28
11.5.3 Welding ... 28
11.5.4 Repairs of weld defects ... 29
11.5.5 Welding consumables ... 29
11.6 Destructive testing of production welds ... 29
11.7 Acceptance requirements ... 29
11.8 Requirements for records and documentation ... 30

12 Specific requirements for metering, regulating and compressor stations ... 31
12.1 General ... 31
12.2 Specific requirements ... 31

Annex A (informative) Qualification procedure for pipeline welders (Girth welds and branch connections) ... 32

A.1 General ... 32
A.2 Approval test ... 32
A.2.1 Execution of the approval test ... 32
A.2.2 Range of test pieces ... 32
A.2.3 Supervision of execution of approval test ... 33
A.3 Inspection ... 33
A.3.1 General ... 33
A.3.2 Testing girth welds ... 34
A.3.3 Testing weldolets ... 34
A.4 Approval range ... 34
A.4.1 General ... 34
A.4.2 Dimension ranges ... 34
A.4.3 Techniques ... 34
A.5 Certificate ... 35
A.5.1 General ... 35
A.5.2 Duration of validity ... 35

Annex B (informative) Testing of lamination defects ..... 36

Annex C (informative) Time-of-flight diffraction technique (TOFD) ..... 37

C.1 General ..... 37
C.2 Additional and substitutional requirements to EN ISO 10863:2011 ..... 37
C.2.1 Addition to the whole document EN ISO 10863:2011 ..... 37
C.2.2 Addition to EN ISO 10863:2011, Clause 3 "Terms and definitions" ..... 37
C.2.3 Addition to EN ISO 10863:2011, Clause 5, "Examination Levels" ..... 39
C.2.4 Addition to EN ISO 10863:2011, 7.2.2, "Ultrasonic probes" ..... 39
C.2.5 Substitution of EN ISO 10863:2011, Clause 11, 3 rd paragraph "Weld testing" ..... 39
C.2.6 Substitution of EN ISO 10863:2011, 12.5.2 "Sizing" ..... 40

Annex D (informative) Critical aspects for hot-tap welding or welding on in-service pipelines ..... 45

D.1 General ..... 45
D.2 Recommendations ..... 45
D.2.1 Equipment ..... 45
D.2.2 Supervision ..... 45
D.2.3 Safety precautions ..... 45
D.2.4 Identification ..... 45
D.2.5 Filler materials ..... 45
D.3 Weld preparation ..... 46
D.4 Welding procedure specification (WPS) ..... 46
D.4.1 Description of the WPS ..... 46
D.4.2 Qualification of the WPS ..... 46
D.4.3 Approval of the WPS ..... 46
D.5 Qualification of the welder ..... 46
D.6 Precautions ..... 46
D.7 Execution ..... 47
D.8 Repairs ..... 47
D.9 WPS qualification record ..... 47

Annex E (informative) Visual examination of joints ..... 49

E.1 General ..... 49
E.2 Recommendations ..... 49

Annex F (informative) Manual ultrasonic testing of weld joints for wall thickness between approximately 6 mm and 8 mm ..... 50

F.1 General ..... 50
F.2 Setting ..... 50
F.2.1 Setting of range ..... 50
F.2.2 Sensitivity adjustment when using the Distance Gain Size method ..... 50

Annex G (normative) Acceptance criteria - Recommendations for on-site production welds ..... 54

G.1 General ..... 54
G.2 Acceptance criteria according to EN ISO 5817 ..... 54
G.3 Summary of requirements for defect acceptance levels and defect limits ..... 57
G.3.1 General ..... 57
G.3.2 Requirements ..... 58
G.4 Method and acceptance criteria for ultrasonic inspection assessment ..... 65
G.4.1 Distance Gain Size method ..... 65
G.4.2 Comparative Element method ..... 65
G.4.3 General ..... 65
G.4.4 Assessment of indications using automatic pulse-echo technique ..... 67

Annex H (informative) Brazing and aluminothermic welding of leads for cathodic protection systems ..... 68

**H.1 Joining techniques ..... 68**
**H.2 Procedure qualification ..... 68**
**H.3 Operation qualification ..... 70**
**H.4 Production joints ..... 70**

**Annex I (informative) Significant technical changes between this European Standard and the previous edition ..... 71**

**Bibliography ..... 72**
