

# DIN 30678-1:2024-01 (E)

## Polypropylen coatings of steel pipes and fittings - Part 1: Requirements and testings of factory-applied extruded coatings

---

| <b>Contents</b>   |   | <b>Page</b> |
|---|---|-------------|
| Foreword .....  |   | 5           |
| 1   | Scope .....                                       | 6           |
| 2   | Normative references .....                        | 6           |
| 3   | Terms and definitions .....                       | 8           |
| 4   | Symbols and abbreviations .....                   | 8           |
| 5   | Coating .....                                     | 9           |
| 6   | Information to be supplied by the purchaser ..... | 9           |
| 6.1   | Mandatory information .....                       | 9           |
| 6.2   | Order options .....                               | 9           |
| 7   | Application of the coating .....                  | 10          |
| 7.1   | General .....                                     | 10          |
| 7.2   | Surface preparation .....                         | 10          |
| 7.3   | Structure of the coating .....                    | 10          |
| 7.3.1   | General .....                                     | 10          |
| 7.3.2   | Epoxy resin primer .....                          | 11          |
| 7.3.3   | Polypropylene adhesive (PP adhesive) .....        | 11          |
| 7.3.4   | Polypropylene coating .....                       | 12          |
| 7.3.5   | Cutback .....                                     | 12          |
| 8   | Requirements and testing .....                    | 12          |
| 8.1   | General .....                                     | 12          |
| 8.2   | Coating properties .....                          | 12          |
| 8.3   | Test methods .....                                | 17          |
| 8.4   | Inspection documents .....                        | 17          |
| 9   | Repairs .....                                     | 17          |
| 9.1   | General .....                                     | 17          |
| 9.2   | Minor damage .....                                | 17          |
| 9.3   | Serious damage .....                              | 18          |
| 10  | Marking .....                                     | 18          |
| 11  | Handling, transportation and storage .....        | 18          |
| Annex A (normative) Measuring thickness .....                     |   | 19          |
| A.1   | General .....                                     | 19          |
| A.2   | Test report .....                                 | 19          |
| Annex B (normative) Degree of cure of the epoxy resin layer ..... |   | 20          |
| B.1   | General .....                                     | 20          |
| B.2   | Apparatus .....                                   | 20          |
| B.3   | Description of method .....                       | 20          |

|   |                                |    |
|---|--------------------------------|----|
| B.3.1   | Sampling .....                 | 20 |
| B.3.2   | Measurement procedure .....    | 20 |
| B.3.3   | Evaluation .....               | 21 |
| B.4   | Test report .....              | 21 |
| Annex C (normative) Cathodic disbondment (CD test) .....                          |                                | 22 |
| C.1   | General .....                  | 22 |
| C.2   | Apparatus .....                | 22 |
| C.3   | Description of method .....    | 24 |
| C.3.1   | Sample preparation .....       | 24 |
| C.3.2   | Measurement procedure .....    | 24 |
| C.3.3   | Evaluation .....               | 24 |
| C.4   | Test report .....              | 25 |
| Annex D (normative) Peel strength .....   |                                | 26 |
| D.1   | General .....                  | 26 |
| D.2   | Apparatus .....                | 26 |
| D.3   | Description of method .....    | 29 |
| D.3.1   | Sample preparation .....       | 29 |
| D.3.2   | Measurement procedure .....    | 29 |
| D.3.3   | Evaluation .....               | 29 |
| D.4   | Test report .....              | 29 |
| Annex E (normative) Continuity (holiday detection) .....                          |                                | 30 |
| E.1   | General .....                  | 30 |
| E.2   | Test apparatus .....           | 30 |
| E.3   | Procedure .....                | 30 |
| E.4   | Test report .....              | 31 |
| Annex F (normative) Strain at break .....   |                                | 32 |
| F.1   | General .....                  | 32 |
| F.2   | Test apparatus .....           | 32 |
| F.3   | Description of method .....    | 32 |
| F.3.1   | Sample preparation .....       | 32 |
| F.3.2   | Measurement procedure .....    | 32 |
| F.3.3   | Evaluation .....               | 33 |
| F.4   | Test report .....              | 33 |
| Annex G (normative) Impact resistance and low temperature impact resistance ..... |                                | 34 |
| G.1   | General .....                  | 34 |
| G.2   | Test apparatus .....           | 34 |
| G.3   | Description of method .....    | 34 |
| G.3.1   | Sample preparation .....       | 34 |
| G.3.2   | Procedure and evaluation ..... | 34 |
| G.4   | Test report .....              | 35 |
| Annex H (normative) Indentation resistance .....                                  |                                | 36 |
| H.1   | General .....                  | 36 |
| H.2   | Test apparatus .....           | 36 |
| H.3   | Description of method .....    | 36 |
| H.3.1   | Sample preparation .....       | 36 |
| H.3.2   | Procedure and evaluation ..... | 36 |
| H.4   | Test report .....              | 36 |
| Annex I (normative) Specific electrical coating resistance .....                  |                                | 37 |

|   |                                |    |
|---|--------------------------------|----|
| I.1   | General .....                  | 37 |
| I.2   | Test apparatus .....           | 37 |
| I.3   | Description of method .....    | 37 |
| I.3.1   | Sample preparation .....       | 37 |
| I.3.2   | Procedure and evaluation ..... | 37 |
| I.4   | Test report .....              | 38 |
| Annex J (normative) UV resistance .....             |                                | 39 |
| J.1   | General .....                  | 39 |
| J.2   | Apparatus .....                | 39 |
| J.3   | Description of method .....    | 39 |
| J.3.1   | Sample preparation .....       | 39 |
| J.3.2   | Measurement procedure .....    | 39 |
| J.3.3   | Evaluation .....               | 39 |
| J.4   | Test report .....              | 40 |
| Annex K (normative) Thermal ageing resistance ..... |                                | 41 |
| K.1   | General .....                  | 41 |
| K.2   | Test apparatus .....           | 41 |
| K.3   | Description of method .....    | 41 |
| K.3.1   | Sample preparation .....       | 41 |
| K.3.2   | Measurement .....              | 41 |
| K.3.3   | Evaluation .....               | 41 |
| K.4   | Test report .....              | 41 |
| Bibliography .....                                  |                                | 43 |
