ISO 16923:2026-01 (E)

Natural gas fuelling stations - Compressed natural gas (CNG) stations for fuelling vehicles

Contents

Page

Foreword v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 3

4 Symbols and abbreviated terms 9
4.1 Symbols 9
4.2 Abbreviated terms 9

5 Risk management 9
5.1 General 9
5.2 Hazardous area classification 11
5.3 Design and safety requirements for station layout and operation 11
5.4 Site layout 12
5.5 Pressure safety relief valves and venting 13

6 Fuel supply to the fuelling station 13
6.1 Supply by pipeline 13
6.2 Supply by mobile storage 14

7 Dryer 15

8 Compressors 15
8.1 General 15
8.2 Instrumentation and control 16
8.3 Compressor design 16
8.3.1 General 16
8.4 Compressor enclosures, buildings and canopies 16
8.5 Underground compressor installations 17
8.6 Hazardous area classification 18

9 Buffer storage 18
9.1 General 18

10 Dispensers 18
10.1 General requirements 18
10.2 Breakaway devices 19
10.3 Fuelling hose assemblies 20
10.4 Fuelling hoses 20
10.5 Dispenser enclosure 21
10.6 Fuelling controls and instrumentation 22
10.7 Electrical systems and interconnections 24

11 Gas odorization 24

12 Pipework 25
12.1 General 25
12.2 Buried piping 25

13 Electrical 26
13.1 Labelling 26
13.2 Contact with live parts 26
13.3 Cables 26
13.4 Performance after power fail and restoration 26
13.5 Electrical and grounding 26

14 Instrumentation and control system 27
14.1 General 27
14.2 Gas detection 27
14.3 Uninterruptible power supply unit (UPS) 27

15 Emergency shutdown 28
15.1 Emergency shutdown devices (ESDs) 28
15.2 Emergency shutdown procedure 28
15.3 Restoration after emergency shutdown 29

16 Indoor fuelling 29
16.1 General 29
16.2 Ventilation 29
16.3 Additional requirements 29

17 Testing and commissioning 30

18 Operation 30
18.1 Fuelling procedures 30
18.2 Safety signs 30
18.3 Training 31
18.4 Emergency response plan 32
18.5 Explosion protection measures 32
18.6 Operations manual 32
18.7 Documentation 32
18.7.1 Traceability 32
18.7.2 Handover documents 32

19 Installation and operating instructions 32

20 Inspection and maintenance 33
20.1 Inspection and maintenance program 33
20.2 Maintenance and testing frequency of gas detection 33
20.3 Maintenance operations 34
20.3.1 General 34
20.4 instrument loops 34

Annex A (informative)Examplesofhazardouszoneclassification 35

Annex B (normative) Separation distances 42

Annex C (informative) Fuelling procedures 43

Annex D (informative) Emergency instructions example 44

Annex E (informative) Example of fuelling station periodic inspection and maintenance 45

Bibliography 47
