DIN EN 1949:2006-03 (E)

Specification for the installation of LPG systems for habitation purposes in leisure accommodation vehicules and in other vehicules

Contents

Page

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 General requirements 9
4.1 Dynamic loads 9
4.2 Soundness 9
4.2.1 Requirements 9
4.2.2 Test 9

5 Cylinder compartments 9
5.1 General 9
5.2 Cylinder compartments with internal access 11
5.3 Cylinders secured outside the vehicle 11
5.4 Ventilation for cylinder compartments 12
5.5 Cylinder compartments with ducted ventilation and internal access 12
5.6 Appliances, components and fittings in cylinder compartments 12
5.7 Requirements for the construction of cylinder compartments 12

6 Pressure regulation systems and working pressures 13
6.1 Pressure regulation systems 13
6.2 Marking of the working pressure 13
6.3 Devices to protect against over-pressure 13
6.4 Connection of pressure regulators to rigid pipework - Low pressure supply 13
6.5 Connection of a dual cylinder system 13
6.6 Connection of an external LPG supply by means of a plug-in connector 14

7 Components 14
7.1 Hoses 14
7.2 Pipes 14
7.3 Pipe fittings 14
7.4 Jointing materials 16
7.5 Shut-off valves 16

8 Installation design 16
8.1 General 16
8.2 Protection against mechanical damage 16
8.3 Avoidance of corrosion 16
8.4 Pipe sizing 16
8.5 Pipe fittings 16
8.6 Positioning of LPG pipes near to other services 17
8.7 Fixing 17
8.8 Shut-off valves 17
8.9 Earthing of LPG pipes 17

9 Connection of appliances to the LPG supply installation 17

10 Appliances 18
10.1 Suitability of appliances 18

10.2 Installations 18
10.3 Space heaters 18
10.3.1 Space heating appliances in caravans, motor caravans and other road vehicles 18
10.3.2 Space heating appliances in caravan holiday homes 19
10.4 Water heaters 19
10.4.1 Water heaters in caravans, motor caravans and other road vehicles 19
10.4.2 Water heaters in caravan holiday homes 19
10.5 Cooking appliances 20
10.6 Refrigerators 21
10.7 Gas lights 21

11 Flueing 21
11.1 Flues 21
11.2 Flue terminals 21
11.3 Weather protection 23
11.4 Draught diverters 23
11.5 Accessibility of flues 23

12 User's handbook 23

Annex A (informative) National situations in the member states 25

Annex B (informative) Countries where underfloor flueing is not permitted 26
