Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 General requirements 7
4.1 Design 7
4.2 Materials for laryngoscope blades and single-piece laryngoscopes 7
4.3 Environmental requirements 7
4.4 Internal electrical power source 7

5 Performance requirements 8
5.1 Illumination 8
5.2 Blade strength and rigidity 8
5.3 Blade and handle hook-on fittings 8
5.4 Handle fittings 8
5.5 Blade fittings 11
5.6 Engagement 11
5.7 Operating position 11
5.8 Disengagement 11

6 Lamp for conventional blade 13
6.1 Lamp and lamp base contact 13
6.2 Screw thread for lamps 14

7 Lamps for fibre-illuminated laryngoscopes 15

8 Sockets for conventional blades 15
8.1 Dimensions and centre contact 15
8.2 Internal screw threads 15

9 Cleaning, disinfection and sterilization 15

10 Marking and labelling 16

11 Accompanying documents 16

Annex A (normative) Test method for lamp contact security 18

Annex B (normative) Test methods for strength, rigidity and illumination 19

Annex C (informative) Blade size markings 21

Annex D (informative) Laryngoscope blade designs 22

Annex E (informative) Rationale for inclusion of certain requirements 29

Bibliography 31

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC 32
