## Anaesthetic and respiratory equipment - Compatibility with oxygen

---

| <b>Contents</b>                                                                                                                             |  | <b>Page</b> |
|---------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|
| Foreword .....                                                                                                                              |  | iv          |
| Introduction .....                                                                                                                          |  | v           |
| 1* Scope .....                                                                                                                              |  | 1           |
| 2 Normative references .....                                                                                                                |  | 1           |
| 3 Terms and definitions .....                                                                                                               |  | 1           |
| 4 Cleanliness .....                                                                                                                         |  | 2           |
| 5* Resistance to ignition .....                                                                                                             |  | 3           |
| 6 Risk management .....                                                                                                                     |  | 3           |
| Annex A (informative) Examples of cleaning procedures .....                                                                                 |  | 4           |
| Annex B (informative) Typical methods for validation of cleaning procedures .....                                                           |  | 11          |
| Annex C (informative) Design considerations .....                                                                                           |  | 14          |
| Annex D (informative) Selection of materials .....                                                                                          |  | 19          |
| Annex E (informative) Recommended method for combustion and quantitative analysis of<br>combustion products of non-metallic materials ..... |  | 32          |
| Annex F (informative) Rationale .....                                                                                                       |  | 37          |
| Bibliography .....                                                                                                                          |  | 38          |
