Foreword iv

Introduction v

1 Scope 1

2 Terms and definitions 1

3 Requirements 2
3.1 General summary 2

4 User-related factors 3
4.1 General 3
4.2 Quality of life 3
4.3 Independence or assistance 4
4.4 Nature of incontinence 4
4.5 End-user characteristics 4
4.6 Activities 4
4.7 Individual needs 5
4.8 Handling products 5

5 Product-related factors 5
5.1 General 5
5.2 Freedom from leakage 5
5.3 Freedom from odour leakage 5
5.4 Skin health 6
5.5 Comfort and fit 6
5.6 Discretion 7

6 Usage-related factors 7
6.1 Ergonomics 7
6.2 Needs of carer 7
6.3 Information supplied 7
6.4 Laundry facilities 7
6.5 Disposal facilities 7
6.6 Sustainability, environment 8
6.7 Product safety 8
6.8 Cost 8

7 Evaluation methods 8
7.1 General 8
7.2 Testing in user trials 8
7.3 Testing in the laboratory 9
7.4 The combined approach 9
7.5 Interpretation of test results 9
7.6 Sample size 10
