Health informatics - Capacity-based eHealth architecture roadmap - Part 1: Overview of nati onal eHealth initiatives

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Terms and definitions 1

3 Abbreviations 6

4 Initiatives reviewed 7
4.1 Health Metrics Network 7
4.2 Australia 7
4.2.1 National health system 7
4.2.2 Focus of national health system 9
4.2.3 Components of the national health information system 10
4.2.4 National eHealth policies 11
4.2.5 National eHealth architecture stage of development 15
4.2.6 National data warehouse 17
4.2.7 Standards in use 17
4.2.8 Standards Development Organizations (SDOs) and Health Informatics Associations 19
4.2.9 National reporting infrastructure for individual and/or summary data 20
4.2.10 Households with Internet access 20
4.3 Brazil 20
4.3.1 National health system 20
4.3.2 Focus of national health system 20
4.3.3 Components of the national health information system 22
4.3.4 National eHealth policies 23
4.3.5 National eHealth architecture stage of development 24
4.3.6 National data warehouse 24
4.3.7 Standards in use 25
4.3.8 Standards Development Organizations (SDOs) and Health Informatics Associations 25
4.3.9 National reporting infrastructure for individual and/or summary data 26
4.3.10 Households with Internet access 26
4.4 Canada 27
4.4.1 National health system 27
4.4.2 Focus of national health system 29
4.4.3 Components of the national health information system 30
4.4.4 National eHealth policies 31
4.4.5 National eHealth architecture stage of development 32
4.4.6 National data warehouse 34
4.4.7 Standards in use 34
4.4.8 Standards Development Organizations (SDOs) and Health Informatics Associations 34
4.4.9 National reporting infrastructure for individual and/or summary data 35
4.4.10 Households with Internet access 35
4.5 India 35
4.5.1 National health system 35
4.5.2 Focus of national health system 36
4.5.3 Components of the national health information system 37
4.5.4 National eHealth policies 37
4.5.5 National eHealth architecture stage of development 37

4.5.6 National data warehouse and national reporting infrastructure for individual and/or summary data 37
4.5.7 Standards in use 37
4.5.8 Standards Development Organizations (SDOs) and Health Informatics Associations 38
4.5.9 Households with Internet access 38
4.6 Kenya 38
4.6.1 National health system; focus of national health system 38
4.6.2 Components of the national health information system 39
4.6.3 National eHealth policies 42
4.6.4 National eHealth architecture stage of development 43
4.6.5 Standards in use 43
4.6.6 Standards Development Organizations (SDO) and Health Informatics Associations 44
4.6.7 National reporting infrastructure for individual and/or summary data 44
4.6.8 Households with Internet access 44

5 International Monitoring and Evaluation frameworks 44
5.1 Overview 44
5.2 Global Fund to Fight AIDS, Tuberculosis, and Malaria (GFATM) 44
5.3 Joint United Nations Program on HIV/AIDS (UNAIDS) 44
5.4 Pan American Health Organization (PAHO) Framework 45
5.5 Brazilian Health Indicators Framework 45
5.6 Canadian Health Indicators Framework 45
5.7 United States Health Indicators Frameworks 45

6 Key findings 46

7 Need for an eHealth Architecture Maturity Model (eHAMM) 49
