Health informatics - Capacity-based eHealth architecture roadmap - Part 1: Overview of national eHealth initiatives

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Terms and definitions	1
3	Abbreviations	6
4	Initiatives reviewed	7
4.1	Health Metrics Network	7
4.2	Australia	7
4.2.1	National health system	7
4.2.2	Focus of national health system	9
4.2.3	Components of the national health information system	10
4.2.4	National eHealth policies	11
4.2.5	National eHealth architecture stage of development	15
4.2.6	National data warehouse	17
4.2.7	Standards in use	17
4.2.8	Standards Development Organizations (SDOs) and Health Informatics Associations	19
4.2.9	National reporting infrastructure for individual and/or summary data	20
4.2.10	Households with Internet access	20
4.3	Brazil	20
4.3.1	National health system	20
4.3.2	Focus of national health system	20
4.3.3	Components of the national health information system	22
4.3.4	National eHealth policies	23
4.3.5	National eHealth architecture stage of development	24
4.3.6	National data warehouse	24
4.3.7	Standards in use	25
4.3.8	Standards Development Organizations (SDOs) and Health Informatics Associations	25
4.3.9	National reporting infrastructure for individual and/or summary data	26
4.3.10	Households with Internet access	26
4.4	Canada	27
4.4.1	National health system	27
4.4.2	Focus of national health system	29
4.4.3	Components of the national health information system	30
4.4.4	National eHealth policies	31
4.4.5	National eHealth architecture stage of development	32
4.4.6	National data warehouse	34
4.4.7	Standards in use	34
4.4.8	Standards Development Organizations (SDOs) and Health Informatics Associations	34
4.4.9	National reporting infrastructure for individual and/or summary data	35
4.4.10	Households with Internet access	35
4.5	India	35
4.5.1	National health system	35
4.5.2	Focus of national health system	36
4.5.3	Components of the national health information system	37
4.5.4	National eHealth policies	37
4.5.5	National eHealth architecture stage of development	37

4.5.6	National data warehouse and national reporting infrastructure for individual and/or summary data	37
4.5.7	Standards in use	37
4.5.8	Standards Development Organizations (SDOs) and Health Informatics Associations	38
4.5.9	Households with Internet access	38
4.6	Kenya	38
4.6.1	National health system; focus of national health system	38
4.6.2	Components of the national health information system	39
4.6.3	National eHealth policies	42
4.6.4	National eHealth architecture stage of development	43
4.6.5	Standards in use	43
4.6.6	Standards Development Organizations (SDO) and Health Informatics Associations	44
4.6.7	National reporting infrastructure for individual and/or summary data	44
4.6.8	Households with Internet access	44
5	International Monitoring and Evaluation frameworks	44
5.1	Overview	44
5.2	Global Fund to Fight AIDS, Tuberculosis, and Malaria (GFATM)	44
5.3	Joint United Nations Program on HIV/AIDS (UNAIDS)	44
5.4	Pan American Health Organization (PAHO) Framework	45
5.5	Brazilian Health Indicators Framework	45
5.6	Canadian Health Indicators Framework	45
5.7	United States Health Indicators Frameworks	45
6	Key findings	46
7	Need for an eHealth Architecture Maturity Model (eHAMM)	49
	Bibliography	52
