ISO 5361:2012-10 (E)

Anaesthetic and respiratory equipment - Tracheal tubes and connectors

Contents

Page

Foreword iv

Introduction v

1 *Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 *General requirements for tracheal tubes and tracheal tube connectors 5
4.1 Risk assessment 5
4.2 Safety 6

5 Specificrequirementsfortrachealtubesandtrachealtubeconnectors 6
5.1 Size designation 6
5.2 Dimensions 6
5.3 *Materials 14
5.4 Tracheal tube bevel 15
5.5 *Tracheal tube cuffs 15
5.6 Inflatingsystemforcuffs 16
5.7 Curvature of the tube 16
5.8 *Radiopaque marker 18
5.9 *Kink resistance 18

6 Additional requirement for tracheal tubes with a Murphy eye 19
6.1 Size of the Murphy eye 19
6.2 Location of the Murphy eye 19
6.3 Resistance to kinking or collapse of the Murphy eye 19
6.4 Surface characteristics of the Murphy eye 19

7 Requirements for tracheal tubes with tracheal tube connectors supplied sterile 20
7.1 Sterility assurance 20
7.2 Packaging for tracheal tubes and tracheal tube connectors supplied sterile 20

8 Marking 20
8.1 Use of symbols 20
8.2 Tracheal tubes 20
8.3 Marking on the tracheal tube individual pack or any insert 21
8.4 Marking on tracheal tube connectors 23

Annex A (informative) Rationale 24

Annex B (normative) Determination of cuff diameter 28

Annex C (normative) Test method for cuffed tube collapse 29

Annex D (normative) *Test method for cuff herniation 32

Annex E (informative) Guidance on design of tracheal tube connectors 34

Annex F (informative)Hazardidentificationforriskassessment 35

Annex G (normative) *Test method for tracheal seal 38

Annex H (normative) Test method to determine kink resistance 41
