# DIN EN 12183:2014-06 (E)

## Manual wheelchairs - Requirements and test methods

## Contents

Page

Foreword ..... 5

Introduction ..... 6

1 Scope ..... 7

2 Normative references ..... 7

3 Terms and definitions ..... 8

4 Test apparatus ..... 8

5 General requirements ..... 9

6 Preparation for testing ..... 10
6.1 General ..... 10
6.2 Test dummy ..... 10

7 Wheelchair performance ..... 10
7.1 Static stability ..... 10
7.1.1 Requirements ..... 10
7.1.2 Test method ..... 10
7.2 Static, impact and fatigue strength ..... 10
7.2.1 Requirements ..... 10
7.2.2 Test ..... 10
7.3 Tilting fatigue strength ..... 11
7.3.1 General ..... 11
7.3.2 Requirement ..... 11
7.3.3 Test method ..... 11
7.4 Wheelchairs for use as seats in motor vehicles ..... 12
7.5 Surface temperature ..... 12

8 Component properties ..... 12
8.1 Foot supports, lower leg support assemblies and arm supports ..... 12
8.1.1 Requirements ..... 12
8.1.2 Test methods ..... 13
8.2 Component mass ..... 13
8.3 Pneumatic tyres ..... 14
8.4 Anterior pelvic support ..... 14
8.5 Resistance to ignition ..... 14
8.5.1 Upholstered composite parts ..... 14
8.5.2 Foam materials ..... 14
8.5.3 Other parts ..... 14

9 Propulsion and braking systems ..... 14
9.1 Means for operating brakes ..... 14
9.1.1 Requirement ..... 14
9.1.2 Test method for determination of brake operating forces ..... 15
9.2 Braking functions ..... 16
9.2.1 Requirements ..... 16
9.2.2 Test methods ..... 16
9.3 Pushing force ..... 17

9.3.1 Requirements ..... 17
9.3.2 Test ..... 17

10 Operations ..... 18
10.1 Operations intended to be carried out by the occupant and/or assistant ..... 18
10.2 Controls intended for operation by the occupant ..... 18
10.3 Controls intended for operation by an assistant ..... 19
10.4 Push handles and handgrips ..... 19
10.4.1 Requirements ..... 19
10.4.2 Test method ..... 19
10.5 Operating forces ..... 20
10.5.1 Requirements ..... 20
10.5.2 Test ..... 20
10.6 Seating adjustments for tilt and recline systems ..... 20
10.6.1 Requirements ..... 20
10.6.2 Test method ..... 21

11 Electrical systems -- Electrically powered ancillary equipment ..... 21

12 Information supplied by the manufacturer ..... 21
12.1 General ..... 21
12.2 Pre-sale information ..... 21
12.3 User information ..... 22
12.4 Service information ..... 23
12.5 Labelling ..... 23

13 Test report ..... 24

14 Tables ..... 25

15 Figures ..... 27

Annex A (informative) Recommendations for dimensions and manoeuvring space of manual wheelchairs ..... 32

A.1 Specific dimensions ..... 32
A.1.1 Dimensions when ready for use and when folded and/or dismantled ..... 32
A.1.2 Push handle height ..... 32
A.1.3 Ground clearance ..... 32
A.2 Manoeuvring space ..... 32
A.2.1 Turning diameter ..... 32
A.2.2 Pivot width ..... 32

Annex B (informative) Recommended design features ..... 34

B.1 Introduction ..... 34
B.2 General recommendations ..... 34
B.2.1 Fittings and tools ..... 34
B.2.2 Tyres ..... 34
B.2.3 Means to inflate tyres ..... 34
B.2.4 Surface temperature ..... 34
B.2.5 Occupant transfer into or out of the wheelchair ..... 34
B.2.6 Resistance to contamination from urine incontinence ..... 35
B.2.7 Head support ..... 35
B.2.8 Tipping device ..... 35
B.2.9 Anti-tip devices ..... 35
B.2.10 Accidental release of parking brakes ..... 35
B.2.11 Continuous operating forces ..... 35

C.1 Background ..... 36
C.2 Related provisions in this document ..... 36

**Annex D (informative) Recommendations for castor stem angle .....37**

**D.1 Recommendations .....37**
**D.2 Test method .....37**

**E.1 Technical changes between the first (1999) and second (2006) editions .....38**
**E.2 Technical changes between the second (2006) and third (2009) editions .....39**
**E.3 Technical changes from the third (2009) edition .....40**

**Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of Council Directive 93/42/EEC .....41**

**Bibliography .....45**
