ISO/TR 17791:2013-12 (E)

Health informatics - Guidance on standards for enabling safety in health software

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Termsanddefinitions 1

3 Abbreviated terms 6

4 Health software safety 6
4.1 Health software safety incidents 6
4.2 Health software definitions 7
4.3 Towards safer health software 9
4.4 Health software lifecycle 9
4.5 How standards were selected for assessment 12
4.6 Standards assessed in this Technical Report 13
4.7 Risk management basis 15
4.8 Human factors basis 16
4.9 Granularity 17

5 Standards assessment and guidance 17
5.1 Standards assessment 17
5.2 Standards assessed by lifecycle applicability and software granularity 31
5.3 Standards assessment overlap and gap analysis 33
5.4 Standards for enabling safety in health software -- Implementation and use guidance 36

Annex A (informative)PatientsafetybenefitsarisingfromeHealthinvestments 39

Annex B (informative) Standards analysis from a software lifecycle perspective 40

Annex C (informative) Scope information of safety-relevant JTC 1 standards 44
