DIN EN ISO 11073-10103:2014-06 (E)

Health informatics - Point-of-care medical devi ce communication - Part 10103: Nomenclature - Implantable device, cardiac (ISO/IEEE 11073-10103:2014); English version EN ISO 11073-10103:2013

Contents

Page

1. Overview 5
1.1 Scope 5
1.2 Purpose 6
1.3 Audience 6
1.4 Context 6

2. Normative references 6

3. Definitions, acronyms, and abbreviations 7
3.1 Definitions ....
3.2 Acronyms and abbreviations 8

4. Introduction to IEEE 11073 implantable devices cardiac domain 9

5. Nomenclature requirements 11
5.1 Overview 11
5.2 Scope requirements 11
5.3 Organizational structure requirements 11
5.4 Semantic requirements 11

6. Nomenclature structure 12
6.1 Overview 12
6.2 Highest level containment nodes 1

7. Conformance 18
7.1 Applicability 18
7.2 Conformance specification 18
7.3 Implementation conformance statements (ICSs) 18
7.4 General ICS 19
7.5 Mandatory ICS 19
7.6 Optional ICS 20

8. Extensibility/versioning 21

Annex A (normative) Base terms ....

Annex B (informative) Base terms additional properties 35

Annex C (normative) Expanded terms with systematic name and codes 37

Annex D (normative) Enumerations 51

Annex E (informative) Vendor enumerations 62

Annex F (informative) Example report 74

Annex G (informative) Implementation notes 7

Annex H (informative) Schema and XML for nomenclature 7

Annex I (informative) Bibliography 119

Annex J (informative) IEEE list of participants 1

Foreword 3

Introduction 4
