

DIN EN ISO 10079-1:2016-05 (E)

Medical suction equipment - Part 1: Electrically powered suction equipment (ISO 10079-1:2015), German version EN ISO 10079-1:2015

| Contents | Page |
|--|-------------|
| European foreword | 4 |
| Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 93/42/EEC [OJ L 169] aimed to be covered | 5 |
| Foreword | 8 |
| 1 Scope | 9 |
| 2 Normative references | 9 |
| 3 Terms and definitions | 10 |
| 4 General requirements | 12 |
| 4.1 Risk management | 12 |
| 4.2 Usability | 13 |
| 4.3 Clinical investigation | 13 |
| 4.4 Biophysical or modelling research | 13 |
| 4.5 Test methods | 13 |
| 5 Cleaning, disinfection and sterilization | 13 |
| 6 Design requirements | 14 |
| 6.1 Collection container | 14 |
| 6.1.1 General | 14 |
| 6.1.2 Container capacity | 14 |
| 6.1.3 Container strength | 14 |
| 6.2 Connections | 14 |
| 6.2.1 Tubing connectors for collection containers | 14 |
| 6.2.2 Inlet port | 15 |
| 6.2.3 Exhaust port | 15 |
| 6.3 Suction tubing | 15 |
| 6.4 Vacuum level indicators | 15 |
| 6.5 Spillage on electrical suction equipment | 16 |
| 7 Operational requirements | 16 |
| 7.1 Ease of operation | 16 |
| 7.2 Dismantling and reassembly | 16 |
| 7.3 Mechanical shock | 16 |
| 7.4 Stability | 16 |
| 7.5 Protective devices | 17 |
| 7.5.1 Contamination protection | 17 |
| 7.5.2 Overfill protection devices | 17 |
| 7.5.3 Pressure protection | 17 |
| 7.6 Noise | 17 |
| 7.6.1 Low vacuum/low flowrate equipment | 17 |
| 7.6.2 Suction equipment other than that specified in 7.6.1 | 17 |
| 7.7 Air leakage | 18 |
| 7.7.1 Collection containers for general use | 18 |
| 7.7.2 Collection containers for thoracic drainage | 18 |

| | | |
|-----------|--|-----------|
| 8 | Physical requirements for suction equipment for field use | 18 |
| 8.1 | (*) Dimensions..... | 18 |
| 8.2 | Mass..... | 18 |
| 9 | Performance requirements for vacuum level and flowrate | 18 |
| 9.1 | High vacuum/high flowrate equipment..... | 18 |
| 9.2 | Medium vacuum equipment..... | 19 |
| 9.3 | Low vacuum/low flowrate equipment..... | 19 |
| 9.4 | Low vacuum/high flowrate equipment..... | 19 |
| 9.5 | Thoracic drainage equipment for adults..... | 19 |
| 9.6 | Intermittent vacuum equipment..... | 19 |
| 9.7 | Vacuum regulators with fixed setting..... | 19 |
| 9.8 | Vacuum regulators with variable setting..... | 20 |
| 9.9 | Equipment intended for pharyngeal suction..... | 20 |
| 9.10 | Battery powered transportable suction equipment..... | 20 |
| 9.11 | Interruption of the power supply..... | 20 |
| 10 | (*) Resistance to environment of suction equipment for field and/or transport use | 20 |
| 10.1 | Operating conditions..... | 20 |
| 10.2 | Storage..... | 20 |
| 11 | Information to be supplied by the manufacturer (labelling and instructions for use) | 21 |
| 11.1 | Information supplied by the manufacturer shall comply with EN 1041..... | 21 |
| 11.3 | Labelling of equipment..... | 21 |
| 11.4 | Instructions for use..... | 22 |
| | Annex A (normative) Test methods | 24 |
| | Annex B (informative) Rationale statement | 35 |
| | Annex C (informative) Lumen size and its effect on flowrate | 36 |
| | Annex D (informative) Schematic of suction equipment | 37 |
| | Bibliography | 38 |
