DIN 58912-1:2015-09 (E)

Haemostaseology - Determination of the antithrombin activity - Part 1: Reference measurement procedure using a synthetic peptide substrate

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Designation 5

5 Collection and processing of blood 5

6 Procedure 6
6.1 Preparation of samples and reagents 6
6.2 Methods 6
6.2.1 Method for thrombin (factor IIa) 6
6.2.2 Method for factor Xa 6
6.3 Reaction mixture 7
6.3.1 Manual method for thrombin (factor IIa) 7
6.3.2 Manual method for factor Xa [11] 7
6.4 Quality control 7

7 Report of results 7

Bibliography 8
