DIN EN ISO 13408-7:2015-11 (E)

Aseptic processing of health care products - Part 7: Alternative processes for medical devices and com bination products (ISO 13408-7:2012)

Contents

Page

European foreword ... **3**

Introduction ... **4**

1 Scope ... **5**

2 Normative references ... **5**

3 Terms and definitions ... **5**

4 Quality system elements ... **6**

5 Aseptic process definition ... **6**
5.1 General ... **6**
5.2 Risk management ... **6**

6 Manufacturing environment ... **7**

7 Equipment ... **7**

8 Personnel ... **7**

9 Manufacture of the product ... **7**

10 Process simulation ... **7**
10.1 General ... **7**
10.2 Media selection and growth support ... **7**
10.3 Simulation procedures ... **7**
10.4 Incubation and inspection of process simulation units ... **10**
10.5 Initial performance qualification ... **10**
10.6 Periodic performance requalification ... **10**
10.7 Repeat of initial performance qualification ... **11**
10.8 Documentation of process simulations ... **11**
10.9 Disposition of filled product ... **11**

11 Test for sterility ... **11**
11.1 General ... **11**
11.2 Investigation of positive units from tests for sterility ... **11**

Annex A (informative) **Risk assessment for aseptic processing — Quality risk management method** ... **12**

Annex B (informative) **Selection of a sample for testing for microbial contamination** ... **19**

Annex C (informative) **Testing options for process simulation** ... **20**

Annex ZA (informative) **Relationship between this European Standard and the Essential Requirements of EU Directive 90/385/EEC on active implantable medical devices** ... **23**

Annex ZB (informative) **Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC on medical devices** ... **24**

Annex ZC (informative) **Relationship between this European Standard and the Essential Requirements of EU Directive 98/79/EC on *in vitro* diagnostic medical devices** ... **25**

Bibliography ... **26**
