ISO/TS 13972:2015-10 (E)

Health informatics - Detailed clinical models, characteristics and processes

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Termsanddefinition 1

3 Abbreviated terms 8

4 Definition,purpose,contextsandpositionofDetailedClinicalModels 8
4.1 Definition of Detailed Clinical Models 8
4.2 Purpose for Detailed Clinical Models 10
4.3 Reference (Information) Models and Detailed Clinical Models 11
4.4 Types of Detailed Clinical Models 11
4.5 Context of Detailed Clinical Models 12
4.6 Architectural approach to healthcare interoperability and Detailed Clinical Models 13
4.7 Architectural considerations for Detailed Clinical Models based on the GCM 14

5 Requirements and Methodology for Detailed Clinical Models 16
5.1 DCM application, structure and management 16
5.2 Clinical Requirements 19
5.2.1 General 19
5.2.2 Clinician/user requirements, involvement, and verification for Detailed Clinical Models 20
5.3 Clinical acceptance, adoption, and use 20
5.4 DCM QMS Processes for the systematic approach for quality of DCMs 21
5.4.1 General 21
5.4.2 General requirements 21
5.4.3 General DCM documentation requirements 21
5.5 DCM Governance 22
5.5.1 General 22
5.5.2 Governance and Management responsibility for Detailed Clinical Models 22
5.5.3 Organizing Detailed Clinical Model governance 22
5.5.4 Submission criteria for Detailed Clinical Models 22
5.5.5 Search/access criteria for Detailed Clinical Models 23
5.5.6 Contributors and key competence 23
5.5.7 Clear Accountability 23
5.5.8 Quality 23
5.6 Stakeholder Participation 23
5.7 DCM Development Processes 24
5.7.1 General 24
5.7.2 Hazards in data exchange between clinical information systems 24
5.7.3 Include data exchange specifically in Detailed Clinical Model hazard analysis 25
5.7.4 Keep the Detailed Clinical Model as simple as possible 25
5.8 Detailed Clinical Model content and artefacts 25
5.8.1 General 25
5.8.2 Clinical concept specification of a particular Detailed Clinical Model 26
5.8.3 Context of clinical concept in a Detailed Clinical Model 26
5.8.4 Purpose of the Detailed Clinical Model at instance level 26
5.8.5 Evidence Base for the Detailed Clinical Model topic 27
5.8.6 Description of data elements in the Detailed Clinical Model 28
5.8.7 Instructions for documentation of DCM content 33

5.8.8 Care process / dependence 34
5.8.9 Issues 34
5.8.10 Example of the DCM 35
5.8.11 References 35

5.8.12 Copyrights of source materials, Disclaimer, Terms of use and Copyrights for Detailed Clinical Model 36
5.8.13 Metadata 37
5.8.14 Version management 41
5.8.15 Guidelines and principles for Detailed Clinical Modelling 42
5.8.16 Inclusion of other Detailed Clinical Models 48
5.8.17 Use of terminology 48
5.9 Measurement, analysis and improvement 48
5.9.1 General 48
5.9.2 Detailed Clinical Model maintenance 49
5.9.3 Monitoring and measurement 49
