

ISO 18746:2016-08 (E)

Traditional Chinese medicine - Sterile intradermal acupuncture needles for single use

| Contents | | Page |
|--------------------|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Structure and dimension of intradermal acupuncture needles | 2 |
| 4.1 | Size designation | 2 |
| 4.2 | Structure and dimension of intradermal granule type needle | 3 |
| 4.2.1 | Structure of intradermal granule type needle | 3 |
| 4.2.2 | Dimension of intradermal granule type needle | 3 |
| 4.3 | Structure and dimension of intradermal thumbtack type needle | 4 |
| 4.3.1 | Structure of intradermal thumbtack type needle | 4 |
| 4.3.2 | Dimension of intradermal thumbtack type needle | 4 |
| 5 | Materials | 5 |
| 5.1 | General | 5 |
| 5.2 | Body of intradermal acupuncture needle | 5 |
| 6 | Performance requirements | 5 |
| 6.1 | Appearance and cleanliness | 5 |
| 6.2 | Drawing strength | 5 |
| 6.3 | Hardness of the needle body | 6 |
| 6.4 | Intensity and puncture performance of the needle tip | 6 |
| 6.5 | Sterility | 6 |
| 7 | Packing and identification | 6 |
| 7.1 | Primary packaging | 6 |
| 7.1.1 | Packing method | 6 |
| 7.1.2 | Identification | 6 |
| 7.2 | Secondary packaging | 7 |
| 7.2.1 | Packing method | 7 |
| 7.2.2 | Identification | 7 |
| Bibliography | | 8 |
