## Absorbent incontinence aids for urine and/or faeces - General guidelines on evaluation

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Evaluation requirements .....	4
4.1	General .....	4
4.2	User-related factors .....	4
4.2.1	General .....	4
4.2.2	Quality of life .....	4
4.2.3	Independence or assistance .....	4
4.2.4	Nature of incontinence .....	4
4.2.5	End user characteristics .....	5
4.2.6	Activities .....	5
4.2.7	Individual needs .....	5
4.2.8	Handling products .....	6
4.3	Product-related factors .....	6
4.3.1	General .....	6
4.3.2	Freedom from leakage .....	6
4.3.3	Freedom from odour leakage .....	6
4.3.4	Skin health .....	7
4.3.5	Comfort and fit .....	7
4.3.6	Discretion .....	7
4.4	Usage-related factors .....	8
4.4.1	Ergonomics .....	8
4.4.2	Needs of carer .....	8
4.4.3	Information supplied .....	8
4.4.4	Laundry facilities .....	8
4.4.5	Disposal facilities .....	8
4.4.6	Sustainability and environment .....	8
4.4.7	Product safety .....	9
4.4.8	Cost .....	9
4.5	Evaluation methods .....	9
4.5.1	General .....	9
4.5.2	Testing in the laboratory .....	9
4.5.3	Testing in user trials .....	10
4.5.4	Combined approach .....	10
4.5.5	Interpretation of test results .....	10
4.5.6	Sample size .....	11
